SHISHA

Mint 170

The Mint flavor is the "Golden boy" by which all mint tobacco is judged. This is the purest essence of mint. Try to make a thick smoke or by mixing the flavor with any selection of sweet flavor. Adding mint to any flavor will create a lighter and smoother mix with a clean minty finish. Be warned that just a pinch of Mint flavor can go a long way. Happy Hubbly Bubbly!

Watermelon

The Watermelon flavor is bursting with flavor! This juicy blend has a rich fruity taste that is one of the sweetest shisha flavors. Try your Watermelon with a touch of Mint and enjoy a sweet fruity blast with a cool mint finish..perfection!

Two Apples

Two Apples also known as the Double Apple is a slightly sweet and sour combination. As one of the original hookah flavors, Two Apples is the most smoked flavor in the world. This classic is great on its own for a truly traditional session. Enjoy dense clouds of Two Apples and a flavor that will take you back to an ancient middle eastern Royalty.

Grape

The Grape is one of the holy trinity selection. Grape is extremely smooth, has a tart green grape flavor, and always smokes with beautifully thick clouds of smoke. This is a true classic and a necessity for a Hookah lovers.

Strawberry

Strawberry flavor is a great starter flavor if you would like to try some fruit flavored shisha. This hookah tobacco is superb by itself, and delicious when mixed with mint shisha flavors

Peach

Peach flavored hookah tobacco is popular across the board because of the sweet fruityness and the tart and tangy bite create a delicious combination. Our home made peach is a more fruit based flavor as opposed to the sweeter fruit interpretations. Peach is bold, and provides an excellent hookah session when you want a fruit flavor without a pure sugar blast. Enjoy only Peach alone or if you want to kick it up a notch, try mixing some Strawberry, Vanilla, or Mint flavor.

Vanilla

Vanilla is the ultimate flavor enhancer. Vanilla flavor, though delicious on its own, is ideal for enriching the flavor of almost any hookah tobacco. The subtle, yet rich flavor brings out a complex flavor profile that experienced hookah smokers have come to rely upon. Try mixing Vanilla with Mint, Peach, Apple or Grape, or just about anything else and you won't regret it
